Exclusively at **MENARDS®**

A

Drywall PVA Primer/Sealer (P001)

This high-hiding primer and sealer in one prepares drywall, smooths sanded joints and provides excellent holdout when used under enamel topcoats.

B

Vapor Barrier Acrylic Primer & Finish (P002)

With a perm rating of less than 1.0, this acrylic primer/finisher is designed to reduce moisture loss through walls and ceilings and may be used as a single application.

C

High-Build Latex Primer/Surfacer (P015)

Great for all surfaces, this premium quality latex primer quickly and efficiently hides minor defects such as pinholes, nicks and sanding grooves while evening the porosity of drywall for a smooth, uniform topcoat.

D

Quick-Dry Alkyd Stain-Blocking Primer/Sealer (P008)

This stain-blocking alkyd blocks tenacious ink, odors, smoke and water damage stains while smoothing surface imperfections with a fast-drying formula.

E

100 Series (100, 150, 200, 300)

This product is perfect for high-production jobs, delivering very good hide and excellent touch-up.

Available in Flat, Eggshell, Satin and Semi-Gloss.

F

Dutch Boy® Classic One®

An ultra-durable 100% acrylic interior coating that provides a long-lasting, premium finish. It offers exceptional coverage, hide and outstanding touch-up. In addition, this spatter-resistant formula provides a mildew-resistant coating.

Available in Flat, Eggshell, Satin and Semi-Gloss.

G

1000 Series (1000, 1500, 2000, 3000)

A premium-grade paint that provides excellent hide, outstanding touch-up and a washable, scrubbable finish.

Available in Flat, Eggshell, Satin and Semi-Gloss.

H

Cabinet & Trim Enamel (3500)

With excellent flow and leveling properties, this ultra-premium, non-blocking enamel provides a smooth, hard, washable coating that is resistant to grease and stains.

Available in Semi-Gloss only.

I

ProTex™ (9700, 9710, 9720)

Create various textured appearances with this easy-to-apply product. Helps hide minor surface imperfections in less steps than traditional texture applications.

J

All-Surface 100% Acrylic Stain-Blocking Primer (P007)

This 100% acrylic, stain-blocking primer is ideal for interior and exterior jobs and easily blocks tannins and bleeding wood, as well as a variety of stains on various substrates. It can also be used as a fast-drying primer on galvanized metal or under oil-based paints.

K

Block Filler Acrylic Latex (P9511)

This heavy-duty filler provides great hide and fills porous surfaces to even out masonry, concrete, stucco, cement and flat-surfaced concrete block.

L

Acrylic Gloss Floor Enamel (9400)

This ultra-durable, acrylic floor coating is designed to resist scuffs, marks and wear in high-traffic areas. The fast-drying formula is ready for foot traffic in just 24 hours, making it ideal for commercial areas requiring quick return to service.

Available in Gloss.

M

Elastomeric Stucco & Masonry Paint (5500)

Formulated specifically for stucco and masonry surfaces, this interior/exterior flat coating offers elastomeric properties while including alkali resistance and long-term durability.

Available in Flat only.

N

Exterior (5000, 6000, 7000)

A 100% acrylic exterior premium-grade paint that offers a durable coating with low temperature application (down to 35 °F).

Available in Flat, Satin and Semi-Gloss.
